

Come Home Wit' Me

You Am I

Did you really wanna
Come out tonight with me?
Did you just wanna go
Where everybody else goes?
Now I don't need to read your mind
To see or hear that you ain't mine
Is it just one of us who's gonna
Take the last late night bus?
Come home
Come home wit' me
Come home wit' me
Your words will always stump me
When I just need something right
I wanna kiss you as the sun comes up
And turns out Friday night
I got a good mind
To get right down to it
And forget the way I sweat
When you're walking through my eye
Come home
Come home wit' me
Come home wit' me
I know that I should be ashamed
To see you walk away again
And I've heard every excuse before
But you're just too much for me to lose
Help me girl, stop looking so good
Come home
Come home wit' me
Come home wit' me
Come home
Come home wit' me
