

Open All Night

You Am I

It's been a long day, and you're still retarded, and can't get started and your perfect toes just won't sit still.
A hundred reasons just to lie down faceless and leave no traces
, of the fortune wrapped up in your head.

And no one knows just how you could turn upside down, yeah anything upright, let nothing pass you by.

Oh yeah, its what you show, if you're in a hurry i'll dress you slow.

Oh yeah, each night, nothing passes you by.

Your credit's good here, you'll always find a seat.

Leave the keys out, leave the light on, we're open all night.

You never thought that folks could dig their teeth in

Just to see if you could fight or if you'd cry

And all because you gave your teacup for the kissing

Now its there for the kicking

But you just can't raise your eyes goodbye

And noone knows just how you could turn upside down,

Yeah anything upright, and nothing passes you by

O Yeah, its what you show, if you're in a hurry i'll dress you slow.

Oh yeah, each night, nothing passes you by.

And your credit's good here, you'll always find a seat.

Leave the keys out, leave the light on, we're open all night.

Oh yeah, now you know, i'm in a hurry, you dress me slow

Oh yeah, each night, nothing passes you by

Your credit's good here, you'll always find a seat.

Leave the keys out, leave the light on, we're open all night.

Leave the keys out, leave the light on, we're open all night.
