

Sugar

You Am I

Sugar sit a while
come and rest your feet
Its been a long long while
since you were been close to me
Lets polish of a few
Underneath the sky
Its pulling all its faces
You wanna stand real quiet
and see just what it brings
we've been running too much
need to miss out on a few things
If we just get it on
Tease and treat me wrong
Birds do it
Bees do it
Drop right down to my knees to do it
Just get me on my feet again
Get me on my feet again
Swinging like a tire
Princess off the beat
Telephone wires with all
Explode at your feet
I'm running out of blood
But i'm never cold
But I need to jump those fences
Holding neath the show
Cos I see just what I need
So drag this boy on over
Let him fall real deep
If we just get it on
Tease and treat me wrong
Birds do it
Bees do it
Drop right down to my knees to do it
Just get me on my feet again
Get me on my feet again
Sugar I'm a mess
But its where I wanna be
I wanna burn out with a smile
That cuts right through my teeth
Everyone gets rained
Rained on just the same
But lately its been soaking
Us right to the veins
And we're running out of time
So drag this boy on over
And keep him til its light
Can we just get it on
Tease and treat me wrong
Them birds do it
Them bees do it
Drop right down to my knees to do it
Just get me on my feet again
Just get me on my feet again
Just get me on my feet again
Get me on my feet again
