

When You Got Dry

You Am I

Yeah, you fell but never cried
Save your face and you can kill his style
Never knew but you found out
What it means to lose and it feels to shout
Mr then, its Mrs now
Ain't a shame in being obsessive and proud
You fell
Let's go get help
'cause when you should've been dead
Girl when you got dry
If I fell would you cry
Keep it straight and just be home by nine
He says never change, been always proud
Drop your pants and you could fool the crowd
You fell
Let's go get help
'cause when you should've been dead
Girl when you got dry
Could you feel if you could
Swinging free if you could nail skin to would
He says never change, been always proud
Drop your pants and you could fool the crowd
You fell
Let's go get help
'cause when you should've been dead
Girl when you got dry
When you got dry
Should've left you when you got dry
