

Make Your Move

You Me at Six

Make your move
Hold your breath
Hope that you
Have something left
Wait your turn
To call the shots
Play your hand
Watch your luck

And are you good
I'll be there
And are you good
I'll be there
I think you know

No
No
You're under my skin
You're under my skin
No
No
I've got time? for you
I've got time? for you

All before
I heard you watch
From afar
Caught in the headlights
Of your love
Stuck in first
First on time

And are you good
I'll be there
I think you know

No
No
You're under my skin
You're under my skin
No
No
I've got a time for you
I've got a time for you

Got me right where you want me, don't you?
Got me right where you want me, don't you?
Got me right where you want me, don't you?

Now that you know

No
No
You're under my skin
You're under my skin
No
No

I've got a time for you
I've got a time for you

Ooh
Ooh
