

Wait up for my call  
Cause I want it all  
I've chased for so long  
My time has come

I don't say much  
With poise or grace  
I'll come of age  
In this town on this day  
The wrong song, the wrong place  
To say this to your face  
I'll come close, I'll come here

I'll come loud  
And come clear  
That look in your eyes  
Says you're mine on this day  
The wrong time, the wrong place  
To say this to your face

But I want you when I need you  
Every single night and day

Keep your cool  
You hold the cards, you make the rules  
And I want you when I need you  
Every single night and day  
The right time, the right place  
To say this to your...

Cause I want you when I need you  
Every single night and day
