

Sacrafices

Young Dolph

You see these fast cars, these shiny diamonds
All this shit I got it come from sacrificin
My family good, and all this cake around me
Everything I got it comes from sacrificin
Sacrifices, sacrifices
You can't be a boss until you make some sacrifices
Sacrifices, sacrifices
I'm just a dope boy that make good sacrifices

I sacrificed my life just to feed my fam
And if I had 2 nigga I'd do it again
I sacrificed these bitches for a hunned band
She asked me can she catch my nut,
I said I'll catch you when I can
I call my LA bitch I call you when I land
She move when I say I got her on voice command
Huh, that how I get down, that how I get around
Get messed up too far out of bounce
While I'm somewhere west spending cake out of town

Done sacrificed the last 10 years of my life
To these streets nigga that's how I got my money right
Ask the streets about me they gonn tell you it ain't a game
Homie, the most valuable nigga in the game
That's why I keep that thang on me

You see these fast cars, these shiny diamonds
All this shit I got it come from sacrificin
My family good, and all this cake around me
Everything I got it comes from sacrificin
Sacrifices, sacrifices
You can't be a boss until you make some sacrifices
Sacrifices, sacrifices
I'm just a dope boy that make good sacrifices

I came into this world without a damn thang
Counting 7 at bands, and start a Paper Rap campaign
I'm just a high class, south Memphis dope boy
Hey my nigga close the door, we smoking dope boy
Did all this shit on my own, ain't that dope boy
Only thang I fear is God and I swear I fear going broke boy
All the young niggas, they depend on me
I fucked the shit out of lil mama
She went run her mouth, now her friends want me
I just be laughing at hoes, old ratchet ass hoes
Old maggot ass hoes
A long time ago, I sacrificed all the bitches and bitch niggas
I smoked a blunt them prayed to God
To keep letting my bank account getting bigger

You see these fast cars, these shiny diamonds
All this shit I got it come from sacrificin
My family good, and all this cake around me
Everything I got it comes from sacrificin
Sacrifices, sacrifices
You can't be a boss until you make some sacrifices
Sacrifices, sacrifices

I'm just a dope boy that make good sacrifices
