The truth hurts, so my gun bursts I jump feet first  
Call 'Wop you need a mean verse or need some cheap work  
They call me Mr. Clean but I want the green first  
Got same crazy young niggas no church just murk  
Dump 'em in the river and I bet they got a zipper  
Or kill 'em with a temper, temper shorter than Shirley Temple  
Bullets collapse your lung then I shoot you in the liver  
I'm the cat, cut out your tongue now you're dinner for the critters  
Things in my business so they layin' on my You pussies couldn't kill me so y  
ou snitchin' on a nigga  
Itchy trigger finger, itchin' pitchin' on the trigger  
Underhand pitchin', yeah I'm pitchin' to the dealer  
Wop was a guerilla, nigga helped a guerilla  
Gucci verse the monster nigga, hail Godzilla, wow  
It's me against the world and whoever ridin' with her  
And my shit's still in the club like these old ass strippers

Still in the club throwin' money with my niggas, ay  
This outfit cost me some stacks and it was Maybach-Gucci  
I don't if he a trapper, rapper, or a groupie  
I like my cars roofless, all of my whips coupe-ish  
I mean all of my whips stupid  
All my bitches thick  
They owe me cause I'm lit  
Catch in some in somebody club standin' on top of shit  
Look at these rocks on my wrist  
Still in the club drinkin' lean not liquor, ay  
Scrollin' through my DM, nothin' but models and singles  
Pull up just to flex on a bitch nigga then pull off  
The best advice I can give my lil niggas, don't get caught
