

# Careful What You Wish For

Young Guns

In the days, I run red lights  
Try to outrun the afterlife, but I froze  
See you standing in the cold  
And now we crash in a moment of passion  
Yeah, we create an infinite destruction  
Oh, you inspire me to get higher

Careful what you wish for  
There's no turning back  
There's no escape  
Devils and details  
Don't let the fire cut like a flame  
Careful what you wish for  
There's no turning back  
There's no escape  
Devils and details  
Too much of heaven can hurt like hell  
I sold my soul  
I made a pact  
With fingers crossed behind my back  
I've lost all of my self-control  
Ooh, I know my walls are turning in a second  
Can't defy into a lesson  
But it's a hard way  
I let my heart break, yeah yeah yeah

Careful what you wish for  
There's no turning back  
There's no escape  
Devils and details  
Don't let the fire cut like a flame  
Careful what you wish for  
There's no turning back  
There's no escape  
Devils and details  
Too much of heaven can hurt like hell

Oh, oh, oh  
Hurts like hell  
Oh, oh, oh  
Hurts like hell

I sold my soul  
I made a pact  
With fingers crossed behind my back  
Too much of heaven can hurt like hell  
Too much of heaven can hurt like hell

Careful what you wish for  
There's no turning back  
There's no escape  
Devils and details  
Don't let the fire cut like a flame  
Careful what you wish for  
There's no turning back  
There's no escape  
Devils and details

Too much of heaven can hurt like hell

It hurts like hell
