

# Colour Blind

Young Guns

I've been colourblind  
Trapped in black and white  
Built these walls so high  
Kept myself inside  
'Aint there more than this?  
Ignorance is bliss  
I'm going out of my mind  
Wish that I could just climb  
Yeah what's on the outside could it be different  
I've got to know  
I'm climbing up the walls  
Can't be worse than what's inside

I don't know how it ends no  
Don't know how it ends no  
But this is how it starts tonight

I don't know how it ends no but it starts tonight  
You're thinking black and white  
Black and white  
Stop  
Stop thinking start seeing a new colour  
You're thinking black and white  
Black and white  
Stop  
Stop thinking start seeing in colour

Yeah it's dangerous outside safer undercover  
It's a risk but if I climb could discover  
technicolour  
Seeing in black and white only gets you so far

I don't know how it ends no  
Don't know how it ends no  
But this is how it starts tonight

I don't know how it ends no but it starts tonight  
Yeah the walls we build to keep us safe  
Just keep us on our own  
I don't know how it ends no but it starts tonight

You're thinking black and white  
Black and white  
Stop  
Stop thinking start seeing new colour  
You're thinking black and white  
Black and white  
Stop  
Stop thinking start seeing a new colour

I don't know how it ends no  
Don't know how it ends no  
But this is how it starts tonight  
I don't know how it ends no but it starts tonight

Yeah the walls we build to keep us safe  
Just keep us on our own

I don't know how it ends no but it starts tonight
