

# Mercury in Retrograde

Young Guns

Mercury rising  
In the dead of night  
When I look at you, yeah,  
I believe I come alive  
Now something is different  
I see it in your eyes  
But you kept undercover  
Broke the lift, you raised the tide

Desire  
Temperature gets higher  
Comes down to the wire  
It's too late  
Mercury in retrograde  
Quicksilver, running like a river  
It's so cold, we shiver  
So is our faith  
Mercury in retrograde

Everything declines if you give it time  
On the walls we wager eventually across the line  
Cause people change and the sky turns black  
Then you go so far that you can't go back

Desire  
Temperature gets higher  
Comes down to the wire  
It's too late  
Mercury in retrograde  
Quicksilver, running like a river  
It's so cold, we shiver  
So is our faith  
Mercury in retrograde

People change so it goes

Mercury rising  
In the dead of night  
When I look at you, yeah, I believe I come alive  
Now something is different  
I see it in your eyes  
You keep it undercover

Desire  
Temperature gets higher  
Comes down to the wire  
It's too late  
Mercury in retrograde  
Quicksilver, running like a river  
It's so cold, we shiver  
So is our faith  
Mercury in retrograde

People change  
People change  
People change  
People change

Mercury's in retrograde
