

# Speaking In Tongues

Young Guns

I guess  
I thought we were indivisible  
Remember when the distance wasn't insurmountable  
I'd run all night  
Just to hear you speak in tongues to me  
Now we stare at phones  
And talk in awkward teenage poetry

When I get to you yeah my blood runs cold  
'Cos I don't recognise the person I behold  
Underneath the moon yeah we shake our bones  
But I don't understand

When you speak in tongues  
I can't understand a single word you say  
Sex and politics a dangerous game we play  
It's all we've ever known  
We're speaking in tongues  
Face to face but miles away  
We're speaking in tongues  
I can't find the words to say  
We're speaking in tongues  
You're speaking in tongues  
You're speaking in tongues to me

I confess  
I was never one for waxing lyrical  
But the radio  
Taunts me with its modern parables

It don't make sense but it's all I know  
When you're face down there's still further to go  
Underneath the moon yeah we shake our bones  
But I don't understand

When you speak in tongues  
I can't understand a single word you say  
Sex and politics a dangerous game we play  
It's all we've ever known  
We're speaking in tongues  
Face to face but miles away  
We're speaking in tongues  
I can't find the words to say  
We're speaking in tongues  
You're speaking in tongues  
You're speaking in tongues to me

I danced with the devil  
In the pale moonlight  
You've got such a sharp tongue  
Cuts me like a knife

I danced with the devil  
In the pale moonlight  
You've got such a sharp tongue  
Cuts me like a knife  
We're speaking in tongues

I danced with the devil  
We're speaking in tongues  
I danced with the devil  
We're speaking in tongues  
I danced with the devil  
In the pale moonlight  
Oh
