

# Lose My Mind

Young Jeezy

Let's get it shawty  
Oh this dat shit right here  
Wassup wassup  
(103)oh!  
(nigga 103)oh!  
Dey gon get crunk when dis shit drop in the club nigga  
Let's go!

Why ya'll trippin, I'm just fine  
12:45, about dat time  
Could'nt get it all week, time to unwind  
Drank Like a tank, blew my mind

This shit crazy, way too bad  
Rosetti baby, waste 2 stacks  
Hottest thing in the lot, that there mine  
Can't spell sober, lost my mind

I'm hearin voices in my head think I'm schitzophrenic  
I swear they sayin let's get it from anotha planet  
36 a thousand times I'm doin summersaults  
Do it right and you can leave ya whole summer off  
I'm out my mind, yea a nigga seein double ya'll  
Now tell me watz the chance of jizzle fuckin both of ya'll  
She said as long as we can do it with ya ice on  
If that's the case we might as well leave the lights on  
I'm out my mind, just blew a thousand swisher sweets  
In my black and orange charger, call it trick or treat  
It ain't nothin to a boss, my goons got goons  
How stupid dumb big, my rooms got rooms

Why ya'll trippin, I'm just fine  
12:45, about dat time  
Could'nt get it all week, time to unwind  
Drank Like a tank, blew my mind

Do I love these hoes, mmm, kinda sorta  
I got em drinking Sangria like it's fucking water  
Some Miami women, tan lines showing  
And they really bout' whatever shit is mind blowing  
Fuck what they talk, do what I say  
Bust it open girl, and send it my way  
You say you like it like that I think I like it too  
Half a million in a week it's only right I do  
All seein eye, my eyes seen it all  
I talk a lot a shit, I swear I mean it all  
103, and 4 figures to the hater tryna front on me, aghhh

Why ya'll trippin, I'm just fine  
12:45, about dat time  
Could'nt get it all week, time to unwind  
Drank Like a tank, blew my mind

Drop the top, no bra, got da titties out  
Mention my name and bring da whole city out  
Doing what I do best, d-boy stuntin  
New car, old money, d-boy stuntin

Step in cleaner then a new glock-40  
Nickname in the A strapped up shawty  
You know my nerves bad, trigger like a toothpick  
Line wrapped around the corner boy too big  
G-Code, black shades and my black chains  
But if you wouldn't understand, it's a black thing  
You know we drink that Rose til we black out  
Wake up, drink some more, pass back out

Why ya'll trippin, I'm just fine  
12:45, about dat time  
Could'nt get it all week, time to unwind  
Drank Like a tank, blew my mind
