

# What I Do (Just Like That)

Young Jeezy

Just like that, niggas don't know how to act  
Bet when them niggas hear this they get to grabbing they strap  
Just let them DJ, they know, they get to bringing it back  
Them niggas hit up the club, they get to bringing the set  
I said, now just like that, bitches don't know what to do  
And when we hit up the club, you know them broads coming through  
I told her hit up her girl, tell them that they can come too  
And now that bitch off the chain, I told y'all then what I do  
I say now just like that

Bitches they screaming, I can hear bitches calling  
Give a fuck if they like it, tell them niggas I'm balling  
These niggas holding they nuts  
As you see I ain't stalling  
Swear these niggas a trip  
As you see I ain't falling  
They want me trip on my strings  
Want me fall on my face  
Hit a lick for a hundred and it fell in my safe  
Sexy, no alcoholic, but she drink like a toilet  
Told her do me a favor and put your mouth on this faucet  
I know just how she like it  
She might think I'm a psychic  
Even called me a plumber, she like the way that I pipe it  
Niggas talk like they know me, they must got me mistaken  
Bitch, I'm pleading not guilty, you'll never charge me with faking

Just like that, niggas don't know how to act  
Bet when them niggas hear this they get to grabbing they strap  
Just let them DJ, they know, they get to bringing it back  
Them niggas hit up the club, they get to bringing the set  
I said, now just like that, bitches don't know what to do  
And when we hit up the club, you know them broads coming through  
I told her hit up her girl, tell them that they can come too  
And now that bitch off the chain, I told y'all then what I do  
I say now just like that

You see my back on my shit, you can tell I'm swagging  
And you know that I got it, you can tell I ain't bragging  
Them Rollies wit big faces, drink Ciroc by the cases  
I'm Neo out this bitch, feel like I'm stuck in the Matrix  
I'm talking so much white, you would think I was racist  
See I came from the bottom, I'm talking under the basement  
Threw the roof off this bitch like we just had a tornado  
Desert Eagles, they twins, I call em Cain and Abel  
Hundred K in my pocket, that shit as thick as a Bible  
Superstar in my hood, so that would make me an idol  
Had a hell of a night, so I'mma say me a prayer  
In the lockout I'm balling, so that would make me a player

Just like that, niggas don't know how to act  
Bet when them niggas hear this they get to grabbing they strap  
Just let them DJ, they know, they get to bringing it back  
Them niggas hit up the club, they get to bringing the set  
I said, now just like that, bitches don't know what to do  
And when we hit up the club, you know them broads coming through  
I told her hit up her girl, tell them that they can come too

And now that bitch off the chain, I told y'all then what I do  
I say now just like that

I got em bouncing and leaning, I got em drinking and smoking  
I told her take off her clothes  
What she say? That she open  
If you're getting to money, my nigga, ball like a dog  
Them cigarillos so big, them bitches look like they logs  
I'm the life of the party, bring the party some life  
You know I'm dead-ass serious. Why? Cause I said it twice  
We talking straight suicide, we taking shots to the head  
Must be drinking amnesia, cause I forgot what I said  
Stack up so much bread I'mma need me a toaster  
My partner ride with his chopper, this nigga think he a soldier  
Why I'mma stand in the section when I can stand on the sofa?  
So y'all guess what I does, you never say I ain't told ya Explain
