

Light Switch

Young Knives

We've got bets your on the move
Afternoons fade into afternoons
Wearing the frown of hand me downs
Kicking cushions dust with good time shoes

Is it just a sound
That bounces on the ground
Is it just a silence
A silence of surrounds

You are the light switch
You are the light switch

All your friends are squeezing you
Just to see you do your stuff
Ripped knee slacks on factory tracks and city boys
sing along with top ten tunes

Is it just a sound
That bounces on the ground
Is it just a silence
A silence of surrounds

Faces I have seen
In broken down machines
You can make a difference
And tell us what it means

You are the light switch
You are the light switch
And I noticed the light switch
Because the light you shine is bright x2

Ahhhhhhhhhhhhhhh

Aaaaaand it still stands x2

You are the light switch
You are the light switch
And I noticed the light switch
Because the light you shine is bright x2
