

Closer To You

Young Love

If I put my hand out
Would you put yours in mine?
All of our answers
Questioned in time
Don't let your fears try to tear us apart

I want to get closer to you
I'm on the outside looking in
Tell me our love is real
You know that I will understand
I want to get closer to you
Closer to you
I want to get closer to you
Closer to you

This is bigger, bigger than you or me (you or me)
In those grains of sand waiting by the sea
We'll let the current wash us away

I want to get closer to you
I'm on the outside looking in
Tell me our love is real
You know that I will understand
I want to get closer to you
Closer to you
I want to get closer to you
Closer to you

If I put my hand out
Would you put yours in mine? (don't let your fears try to tear us apart)

I imagine how you feel
Could be the only thing that's real
If you would let me in
Then I would know for sure
