

## Don't Fight It

Young Love

It's a long road if you don't take it you'll never know  
You plant a seed and reap what you've sown  
Standing on the edge of belief  
You start to tremble;  
Feel your doubt crumble

Don't, don't fight it  
Don't, don't fight it  
Don't, don't fight it  
It's so, so epic  
Don't, don't fight it  
Don't, don't fight it  
Don't, don't fight it  
It's so fucking epic...

It's a long road if you don't take it you'll never know

It's a long road if you don't take it you'll never know  
You plant a seed and reap what you've sown  
You've got to give with all you've got  
Don't ever hold back  
You cried when you were born  
It feels so good to release  
The universe rumbles

Don't, don't fight it  
Don't, don't fight it  
Don't, don't fight it  
It's so, so epic  
Don't, don't fight it  
Don't, don't fight it  
Don't, don't fight it  
It's so fucking epic...

It's a long road if you don't take it you'll never know
