## **Down On Me**

The things we remember The pain we forget You've been through so much Without the time to rest My hand is steady right by your side Some things get easier Over time

So lay your troubles down on me girl Lay your troubles down on me Lay your troubles down on me girl Lay your troubles down on me

Sometimes its bad luck Other times its fate Good things dont always come To those who wait And i know your hurting God knows your tired Stay here a little while Stay with me tonight

And lay your troubles down on me girl Lay your troubles down on me Lay your troubles down on me girl Put your troubles down on me

So lay your troubles down on me girl Lay your troubles down on me Lay your troubles down on me girl Lay your troubles down on me

## Young Love
