

# Too Young To Fight It

Young Love

Take a dare don't tell the truth  
Keep this between me and you  
Whispers become loud  
When word of this gets out

Will the message cause a motion?  
We won't know till we get there  
When the suns down, lights come up  
Friends and enemies come together

Summer nights  
Hitting it so hard we're blistering  
Can't keep from moving  
The season is rising  
We're too young to fight it  
We stand united  
Summer nights  
Hitting it so hard we're blistering  
Can't stop to sleep it off

Hearts are beating to the sound  
Kids are living underground  
Rumors get so loud  
We want to scream and shout  
It's taking over now you can't control it  
You're shaking soaking wet in the middle of the night again

Will the message cause a motion?  
We won't know till we get there  
When the suns down, lights come up  
Friends and enemies come together

Summer nights  
Hitting it so hard we're blistering  
Can't keep from moving  
The season is rising  
We're too young to fight it  
We stand united  
Summer nights  
Hitting it so hard we're blistering  
Can't stop to sleep it off  
Can't stop to sleep it off

Will the message cause a motion?  
We won't know till we get there  
When the suns down, lights come up  
Friends and enemies come together

Summer nights  
Hitting it so hard we're blistering  
Can't keep from moving  
The season is rising  
We're too young to fight it  
We stand united  
Summer nights  
Hitting it so hard we're blistering  
Can't stop to sleep it off

Summer nights  
Hitting it so hard we're blistering  
Can't keep from moving  
The season is rising  
We're too young to fight it  
We stand united
