There's no days off, Young Scooter gotta work
With this remix dope I got the trap going berserk
If I fuck around take my shirt off baby you might see
some work
I got bricks on top of bills
And I got bills on top of em
Bentley, rarri old school and I just bought me a M
Got 2 plugs in every country, so I take off half of
them
I got jugs on top of jugs and I got bands on top of
that
Behind 10 around rentals, I got packs on top of scraps
I got anything you want, you know I keep a lot of crack
Every dope boy product, in the country, count your sack
Pull up anywhere with them bricks, don't give a fuck
bout where you at
Jugg house on every corner, I know how to work the trap

Keep workin, keep workin,
Keep workin, keep workin,
Gucci workin, Scooter workin
You a street nigga, keep workin
