Young Scooter!

Told you I'd keep that shit one thousand nigga  
Always keep it real, that's all I know

They kill a nigga for rap fame  
These labels playing money games  
But they can't play the dope man  
It's nothing I don't understand  
These street niggas telling names  
It's ugly in the dope game  
Get caught with a thousand bricks and I won't tell a thing  
Nigga you a snitch, you couldn't do the same

Pac died 'bout this rap shit  
Biggie died 'bout this rap shit  
I probably die cookin' a brick  
And all I want is money, I don't need a fix  
It's flaws in the industry  
You ain't who you supposed to be  
Smoking mid, hood memories  
Now it's two hundred dollar blunts, I'm smoking rapper weed  
How I got it?  
Nigga I stayed down  
Lil Mexico city we got our own town  
We got bricks in bails and they super cheap  
Five in the morning, ain't nobody sleep

They kill a nigga for rap fame  
These labels playing money games  
But they can't play the dope man  
It's nothing I don't understand  
These street niggas telling names  
It's ugly in the dope game  
Get caught with a thousand bricks and I won't tell a thing  
Nigga you a snitch, you couldn't do the same

I'm a count this change, free my nigga Tang  
Way back in '09 I had a Johnny dang  
Now I got six rollies, three plain Janes  
Yeah I use this rap to distribute a move thing  
The labels ask me will I sign (Nah)  
I thought 'bout bird and didn't reply  
He told me call my own shots  
And he behind me til my casket drop  
Me and Future la familia  
I'm a young nigga, shoot chopper  
Straight lean, sippin' out the pint bottle  
I run the streets, I'm your favorite rapper's problem

They kill a nigga for rap fame  
These labels playing money games  
But they can't play the dope man  
It's nothing I don't understand  
These street niggas telling names  
It's ugly in the dope game  
Get caught with a thousand bricks and I won't tell a thing  
Nigga you a snitch, you couldn't do the same
