

# Nothin Important Than Money

Young Scooter

Is nothing important than money  
Them Franklin, them hundreds, them hundreds  
Is nothing important than money  
So we hustling and hustling and hustling.  
Is nothing important than money  
Them Franklin, them hundreds, them hundreds  
Is nothing important than money  
So we hustling and hustling and hustling.

It's nothing more important than a dollar bill  
Dirty money up in cocaine deals  
I speak Japanese to you if I know who you is  
I'm all about the money, fuck how you feel.  
That marley got me thinking everybody's stitch  
I'm used to standing still, pirates on the week  
Any language spoke, nigga, I can speak it  
You don't know your plug line as they don't try to cheat  
So when I take a loss I don't think about it  
I'll take your ass over and I won't think about it  
Wake up in the morning wrap the bitch in loving  
Me is over the birds of a feather.

Is nothing important than money  
Them Franklin, them hundreds, them hundreds  
Is nothing important than money  
So we hustling and hustling and hustling.  
Is nothing important than money  
Them Franklin, them hundreds, them hundreds  
Is nothing important than money  
So we hustling and hustling and hustling.

Ain't nothing important than money  
I can stack it and feel them the hundreds  
For everything gotta take a stand  
Cause I remember I ain't had a shit  
Step on the floor and I ain't had no clothes  
Recycle that, take my bro to work  
He was a thirty eight, I was a thirty four  
I tear them bitches up and I swear that is dope  
But now I'm getting money, can't tell me shit  
I'm all way paper chasing, trying to make a flip  
And I only do gas, I don't do bricks  
And I'm a cash out, you can't front me shit.

Is nothing important than money  
Them Franklin, them hundreds, them hundreds  
Is nothing important than money  
So we hustling and hustling and hustling.  
Is nothing important than money  
Them Franklin, them hundreds, them hundreds  
Is nothing important than money  
So we hustling and hustling and hustling.

Ain't nothing more important than money  
Way before these nigga stand, I want money, get it  
Hundred thousand dollar profit on my own  
Up here in the streets money been grown

But when I think about it when I don't have shit  
Who could I call to get me some, that's the same shit  
But I ain't mad, I check on my list  
Get this money on these suckers, leave the suckers stressing.  
And when I think about it, yeah, I feel good  
You'd be another rich nigga out my fucking hood  
And them crown bare niggas, yeah, they're hating on me  
But I just grab my f'ing in and keep you scared, homie.  
And that's money.

Is nothing important than money  
Them Franklin, them hundreds, them hundreds  
Is nothing important than money  
So we hustling and hustling and hustling.  
Is nothing important than money  
Them Franklin, them hundreds, them hundreds  
Is nothing important than money  
So we hustling and hustling and hustling.
