

Got my childhood in the 80's that shit was crazy  
Thinking just she had a baby, she just a baby  
First pack I ever saw, my big brother gave me  
30 off a hundred dollars, man he tried to slave me  
Shout out to my brother vic, that nigga raised me  
Remember when I seen a brick, it was amazing  
First pistol I ever had, you know I stole it  
First car I ever bought, you know they stole it  
My hawkers still smokin dope, but I can't judge them  
I'll prolly never to vote, and ain't that ugly  
I might just try a new approach, but that is doubtful  
And I ain't gotta buy shooter, I keep a house full

I was wasted last night I swear it was a blur  
Can't remember shit, but I know I wore bur  
Big super-duper bad bitch what I prefer  
And you's a pussy ass nigga, that's what I concur  
Pull up in my super sport, smokin super purp  
Dough jumpin out the gym, I got super work  
These niggas super-duper high cause they super lying  
Super charger, got the super duper going on, super

Dead flint, working I, stickin out like a porcupine  
45 on my waist, I shoot this up like columbine  
Tryna buy, my buy, I'm a shoot for all mine  
Gucci and I'm hard to find, I come back with my seats  
reclined  
Twirl talk, cook it, chicken pow pow  
This might be on bail some, cause she let me slide by  
Wise guy, mob ties, better have your shoes tied  
Your girl know you a bitch nigga, she went and got a 2  
time  
Room full of camera people, I'm a let you slide  
Last nigga tried the stupid shit, that nigga died  
The earth it ain't big enough for us so one day gonn  
collide  
And I ain't with no nobody protect me, I'm a ride

I was wasted last night I swear it was a blur  
Can't remember shit, but I know I wore bur  
Big super-duper bad bitch what I prefer  
And you's a pussy ass nigga, that's what I concur
