

Work

Young Scooter

Only thing I know is get them packs in,
Don't ever let a nigga think you need him
Fuck a friend be about your business
Stand ten tall and get it.
Work, work, work, work,
Work, work, work, work.

When you call a nigga phone and he don't answer for you
That mean that nigga never gave a fuck about you
You're in the streets, don't keep your ID in your wallet
I got like six names, I can be anybody.
Early in the morning got the stole rock
Everything I do I see somebody watching
Lost everything I had, the future's what I got
I turn them free bares to millions of dollars
Lesson to adopt, know I'm good, how are you
Do you like my slick, pot no blow my ex by you
Hear the dope phone ain't working in a dump
So anything you want I got it in the trunk.

Only thing I know is get them packs in,
Don't ever let a nigga think you need him
Fuck a friend be about your business
Stand ten tall and get it.
Work, work, work, work,
Work, work, work, work.

They say crime don't pay when the crime don't pay,
Get in line, I'm flying in the sun they shine,
Stay low, take time and I'm not gonna do time,
Ain't got no time, I'm a rough mine.
Don't ask how, I'm a cash cal,
I can't wait them cause I need 'em now
So inslack and my pills don't hang 'em
I'm in the shootlane like I'm discharge.
I got green, I ain't acting with,
I can kill a nigga, I can knock a bitch
And I can't tell when and why, bitch,
But I can tell have a break to a whole birthday.
That two part, that old shit,
Have a nigga ask where hoes quit,
Lose a nigga head for a trophy,
Then dump a nigga body by the ocean.
Finger a bitch with my trigger finger,
Same finger that I roll a blunt with
Have to fuck you, I'm here, man
And I paid you, you ain't here for shit
Not a board game, but I really scored
But I made a nigga whole see deep quick
Got a new map with a cooler on it,
All you fools got a show on me.

Only thing I know is get them packs in,
Don't ever let a nigga think you need him
Fuck a friend be about your business
Stand ten tall and get it.
Work, work, work, work,

Work, work, work, work.

You're in the streets and you ain't got it,
Then you better take it.
Every nigga around me is impatient.
Down in Miami I know a couple of haters
Man got in projects that bring stupid crazy.
Before the day over, twenty to the eighty
Remix like a cater, I serve you like a waiter
You on the block with no pack, nigga, I see you later,
Got dope on flavors, catch me working daily
All I want is paper, D&G, we made it,
Gotta go to work, you can't be looking crazy.
You trap and don't deserve, if you know how to play it
I had to switch my house, three niggas snitching crazy.

Only thing I know is get them packs in,
Don't ever let a nigga think you need him
Fuck a friend be about your business
Stand ten tall and get it.
Work, work, work, work,
Work, work, work, work.
