

## Night Lead Me Astray

Younger Brother

I don't want to wake up, wake up again with the world the same as she was back then.

I know I'll fall over and over and you'll pick me, you'll pick me up. you'll pick me up. Night lead me astray. Night lead the way.

...Reaching through the glass i see we're all the same. We want are lives to live and our heart to race. i wanna feel that beat inside my soul. I dont need to, dont need to know. Night lead me astray.....

No maps, no ties. No maps no ties.

Let's leave surprises as surprises, please don't explain this feeling I feel as she moves again. Twilight cover take us away we're only here for a day. Night lead me astray.....

No maps no ties, no words no lies, no tears no ties.....

Night lead me astay.  
Only here for a day.  
Night lead me astray
