

Ribbon On A Branch

Younger Brother

You see aerial come alive
I seek and find
Something's whole
The dreams are back
And I'm remembering

Lost myself in you today
Lost myself in every way
I see your love in all you do
I see myself in you

The story goes on and on

Here in the woods now my friends
See you there hang a ribbon on a branch
Feel my feet on the soil
Free of trouble, free from it all

Feel the air under your feet
There's a cool breeze over me

First steps you take, best that you make
Never alone, always awake
Came to a bridge, opened the door
Saw you and more, more than before

Here in the woods now my friends
See you there hang a ribbon on a branch
Feel my feet on the soil
Free of trouble, free from it all

Together we can
Together I am
And the world is my home

Together we can
Together I am
Together we can
Together I am
