

We've got the cure
What a great feeling
The key to healing
A reason for living
We know the cure
To bring life to your bones
His name is Jesus
You're never alone

A heart that is weary
A mind lost control
A soul that is searching
For answers untold
A dream that is fading
A vision that's blurred
A life that is steering
Toward a wrong turn

Riddled with pain
Emotions destroyed
Feeling of hopelessness
All love is void
I've got good news
That'll light up your day
Listen to what I'm about to say

You're never alone
You're never alone
