

Did You Wanna Die

Youth Brigade

I looked at you with curiositiy
But when you looked at me I turned away
And I remember when you first spoke to me
You told me you didn't want to live life day to day
and I could see, if not for me you didn't have to die
And I could see, if not for me you didn't have to die
you seemed so confused you could never decide
If there was a problem you'd just run away
And hide we seemed to agree there was no solution in suicide
So why'd you feel compelled to go and take your life
and I could see, if not for me you didn't have to die
And I could see, if not for me you didn't have to die
wanna die
Wanna die
Wanna die
Wanna die
Did you wanna die
I never understood how you could end that way
But I hadn't see you much before the final day
All of us remembered you took your life
And when you looked for me, I was out of sight
and I could see, if not for me you didn't have to die
And I could see, if not for me you didn't have to die
did you wanna die
