Violence

Youth Brigade

They call us fascist and then they pray To the God that made the world their way In whose name they kill and teach The sermons and the laws they preach

Violence, just for kicks Violence, does it make any sense Violence, can you stop it Violence, do you want to

Philosophy borne of the mind Try to explain the problems of our lives It can t explain away That violence is here to stay

Say it's just our nature We have to fightl Doesn't matter we've been taught that Might Makes Right
