

I Don't Care

Youth Group

We're celebrating the end of call waiting.
I don't want to exercise choice,
All I want to hear is your voice on the air.
I don't care, I don't care.

I've never felt so sober,
But I've been drunk since October.
I could sit on this oval
So long that my toes will freeze.
I don't care, I don't care.

I don't care if my friends start leaving,
Everything's changed it's meaning.
You're a light that I looked too long at.
I see you in every song that's played on the air.
I don't care, I don't care.

A terrace house, a sitting room,
I see myself as a groom.
You're a light that I looked too long at.
I see you in every song that...
I don't care if my friends start leaving,
Everything's changed it's meaning.
You're a light that I looked too long at.
I see you in every song that's played on the air.
I don't care, I don't care.
I just care about you.
