## I Don't Care

**Youth Group** 

We're celebrating the end of call waiting. I don't want to exercise choice, All I want to hear is your voice on the air. I don't care, I don't care.

I've never felt so sober, But I've been drunk since October. I could sit on this oval So long that my toes will freeze. I don't care, I don't care.

I don't care if my friends start leaving, Everything's changed it's meaning. You're a light that I looked too long at. I see you in every song that's played on the air. I don't care, I don't care.

A terrace house, a sitting room, I see myself as a groom. You're a light that I looked too long at. I see you in every song that... I don't care if my friends start leaving, Everything's changed it's meaning. You're a light that I looked too long at. I see you in every song that's played on the air. I don't care, I don't care. I just care about you.
