

I don't mean any harm  
You can trust me like you would trust your own brother  
But he's just nicer  
And I will die soon  
That's what they say when I corrupted your laughter

The doctor puts stronger things  
To tell us you couldn't have babies  
To tell us you couldn't have babies

I don't mean any harm  
You can trust me like you would trust your own brother  
Maybe even better  
And I won't doubt he'd sue me  
That's what you said after you watched the disease cold

The doctor conceals her grin  
To tell us you couldn't have babies  
To tell us you couldn't have babies
