

Operation

Yuck

I drove into the center of town
To find a place that I can settle down
I just got back from a minor operation
I just got out but it didn't go well too well

I wanna be well designed
I wanna be well designed
Cause you talk and I just feel so
Cause you talk and I just feel so

I lie in bed cause I feel so low
I try to think but I just don't fuckin' know

I tap my feet to the rhythm of your heart
And when you die I'll take it back to the start

I wanna be well designed
I wanna be well designed
Cause you talk and I just feel so
Cause you talk and I just feel so

I wanna be well designed
I wanna be well designed
Cause you talk and I just feel so
Cause you talk and I just feel so
