

## Winter Hot Music

YUI

No matter what I do, I'm no good at getting up on  
winter mornings  
I get cold easily, so I want to stay under the covers

A little longer like this...

Music, I reached out past my pillow  
Music, grabbed my remote control  
Music, pointed it at the stereo  
And hit the switch, at 7am

A rhythm fills the room, making me feel good  
Even though I know  
I'll have to get out of bed soon

A little longer like this...

Music, like the tracks, music, of the wind  
Music, it sets me free  
Music, and makes my wishes come true  
A happy 7:05am

Even if an invisible magic takes hold of me  
I can make it through, it's OK

Music, I forgot, music, how depressed I was yesterday  
Music, when I listened, music, my world changed

Music, but I've got to get up, music, I've slept in  
again  
Music, I'm panicking a little  
Music, I open the curtains to see white snow; it's 8am
