Winter Hot Music

No matter what I do, I'm no good at getting up on winter mornings I get cold easily, so I want to stay under the covers A little longer like this... Music, I reached out past my pillow Music, grabbed my remote control Music, pointed it at the stereo And hit the switch, at 7am A rhythm fills the room, making me feel good Even though I know I'll have to get out of bed soon A little longer like this... Music, like the tracks, music, of the wind Music, it sets me free Music, and makes my wishes come true A happy 7:05am Even if an invisible magic takes hold of me I can make it through, it's OK Music, I forgot, music, how depressed I was yesterday Music, when I listened, music, my world changed Music, but I've got to get up, music, I've slept in again Music, I'm panicking a little Music, I open the curtains to see white snow; it's 8am
