

# Does She

Yuna

Am I the problem  
So immature  
I can't accept goodbye

RIP feelings  
But there's no cure  
I've tried a million times

And I heard you're tearing pages from my history  
Ignoring all the side effects  
And I heard you got a new one that looks just like me  
Oh, just like me

But does she want you like I want you  
Does she want you like I want you  
Does she love you like I used to  
See you for the real you  
Does she want you like I  
Like I  
Like I want you?

Don't wanna mention  
Where it went wrong  
Can never make this right (Can't make this right)  
I know there's tension  
Still going strong  
There's no more us or you and I  
And I know you heard that I been living good  
So good without you, baby  
And you know I got a new one that looks just like you  
Oh, just like you

You know she wants me like you want me  
You know she wants me like you want me  
You know she loves me like you used to  
Sees me and it's real too  
Loves me like you, like you, like you want to

But does she want you like I want you  
Does she want you like I, like I, like I want you  
Does she love you like I used to  
See you for the real you  
Does she want you like I  
Like I  
Like I want you

Want you like I want you  
We can still make it right  
Want you like I want you  
There's nothing like you and I

I know you're tearing pages from my history  
But you know there's nothing like you and me
