

# Escape

Yuna

I can feel the sunlight  
On my face  
Yea, I'm so happy

I packed my bags and  
I'm not scared  
Gonna go somewhere

Know I won't relieve you from the path that I was on  
But I'm not gonna stay, I'm gonna try and move along  
I'm not gonna change, I'm still the girl I was before  
But if I stay in one place I can grow  
So

I'm on my way  
I'm flying away  
I want you here  
Yea I could really use an escape  
I could really use an escape

The world is like a book  
Travel page by page  
Break away from your cage

See new horizons  
And lift blindfolds  
Learn from your mistakes

I'm just gonna try and touch the sky, high up above  
No one's gonna stop me from doing what I love  
Keeping all the people who were there to take me on  
Change these moments before they're gone

(3x):

I'm on my way  
I'm flying away  
I want you here  
Yea I could really use an escape  
I could really use an escape

I'm on my way  
I'm flying away  
I want you here  
I could really use an escape  
I could really use an escape

I'm just gonna try and touch the sky, high up above  
No one's gonna stop me from doing what I love  
Keeping all the people who were there to take me on  
Change these moments before they're gone
