

# Falling

Yuna

It's been a long day  
I can't seem to keep up with it.  
I want to fall asleep,  
So I don't have to remember!

Don't have to call me, I turned my phone off  
Let the pillows here protect my heart  
No don't have to check up on me, I'll be alright  
I turned off the lights and swim into the night.

I keep falling  
I keep falling, oooooo  
I keep falling apart!  
I keep falling (falling)  
I keep falling (falling)  
I keep falling (falling)  
Falling for you!

I wanna forget  
All this burden in my past  
I want to fall asleep,  
So I don't have to remember!

Don't have to call me, I turned my phone off  
Let the pillows here protect my heart  
No don't have to check up on me, I'll be alright  
I turned off the lights and swim into the night.

I keep falling  
I keep falling, oooo  
I keep falling apart!  
I keep falling (falling)  
I keep falling (falling)  
I keep falling (falling)  
I keep falling for you!

Rain will start to fall...  
I'll forget it, I'll forget it all!  
Rain will start to fall...  
I'll forget it, I'll forget it all!  
We will start to fall on  
Forget, I forget it all!  
The rain will start to fall on  
I forget, I'll forget it all!

Don't have to call me, I turned my phone off  
Let the pillows here protect my heart  
No don't have to check up on me, I'll be alright  
I turned off the lights and swim into the night.

I keep falling  
I keep falling, oooooo  
I keep falling apart!  
I keep falling (falling)  
I keep falling (falling)  
I keep falling (falling)  
I keep falling for you!
