

Forevermore

Yuna

I feel the fire, it burns inside
I hear a choir sing through the night
Don't let it go, don't ever lose hope

I can feel the change this time
They'll never take away what's mine
I'm gonna reach even higher, I know

I found the strength I'm looking for
I'll take it to forevermore
Yeah I was scared but now I know
That I can take it to
That I can take it to forevermore

I've been dreaming of this life
Piercing through my darkest night
I've been fighting all my life
Reaching for the sky

I can feel the change this time
They'll never take away what's mine
I'm gonna reach even higher, I know

I found the strength I'm looking for
I'll take it to forevermore
Yeah I was scared but now I know
That I can take it to
That I can take it to forevermore

Forevermore
Forevermore
Forevermore
Forevermore

I feel the fire, it burns inside
I hear a choir sing through the night
Don't let it go, don't ever lose hope

I can feel the change this time
They'll never take away what's mine
I'm gonna reach even higher, I know

I found the strength I'm looking for
I'll take it to forevermore
Yeah I was scared but now I know
That I can take it to
That I can take it to forevermore

Forevermore
Forevermore
Forevermore
Forevermore
