

Forget About You

Yuna

I still hear your voice
See your ghost in my house
Speaking softly
Slowly
You live in my nightmares
My daydreams
And everywhere
You're callin' me

Forget about you
If I could erase you from my head then I'd
Forget about you
Tell me how to do it
How do I just
Forget about you
If I could erase you, baby I'd replace you
Forget about you
Forget about you

I don't want to cry for you
'Cause you don't deserve these tears
Thought that I would die for you
Blame it on my younger years
Baby, now my visions clear
Things will never be the same
You were just a phase, my dear
You were just growing pain

You said
I'll never
Find someone
Who's gonna
Love me like you do
Well I wish
You had the
Courage
To show me
A love that's true

Forget about you
If I could erase you from my head then I'd
Forget about you
Tell me how to do it
How do I just
Forget about you
If I could erase you, baby I'd replace you
I'd forget about you
Forget about you

I don't want to cry for you
'Cause you don't deserve these tears
Thought that I would die for you
Blame it on my younger years

Baby, now my vision's clear
Things will never be the same
You were just a phase my dear

You were just growing pain
