I Wanna Go

He's one in a million I don't know when I'll be seeing him again He wants to live in a city Moved out there and he was just seventeen, just seventeen

No I'm not prepared, no I'm not prepared My heart's beating really fast, really fast But I wanna go there, but I wanna go there Let's walk a little further, you know I wanna be here

I wanna go wherever, whenever you wanna go wherever you wanna I wanna go with you I wanna go wherever, whenever you wanna go wherever you wanna Can I go with you?

He stares so politely I'm best behaving when he's walking with me, walking with me Oh, he likes taking photos in black and white They're upon his walls, on his walls

No I'm not prepared, no I'm not prepared My heart's beating really fast, really fast But I wanna go there, but I wanna go there Let's walk a little further, you know I wanna be here

I wanna go wherever, whenever you wanna go wherever you wanna I wanna go with you I wanna go wherever, whenever you wanna go wherever you wanna Can I go with you?

I wanna go wherever, whenever you wanna go wherever you wanna I wanna go with you I wanna go wherever, whenever you wanna go wherever you wanna Can I go with you?
