

## Lovely Intermission

Yuna

I've been really uninspired  
I think I need a miracle

To believe in love  
I never really gave it all  
To believe in love  
I needed something more

You're my lovely intermission  
You're the one that I've been waiting  
Waiting for you  
Waiting for you...

You're my lovely intermission  
I can feel that something's missing  
Before I found you  
Before I found you

Always being on my own  
(Want to be alone)  
(I just want to be alone)  
Never needed anyone  
(Needed anyone)

To believe in love  
I used to think I had it all  
To believe in love  
I needed someone to adore

You're my lovely intermission  
You're the one that I've been waiting  
Waiting for you  
Waiting for you...

You're my lovely intermission  
I can feel that something's missing  
Before I found you  
Before I found you...

You're my lovely intermission (8x)
