

Memo

Yuna

I don't mind if you wanna stay
With that smile upon your face
Hang around for a little while
Please don't drive away even for a mile

Different continents
Its not a thing
Coz I know we'll be okay
Endless borders, countless days
Our love will pave the way

Coz I'll be your wall
For you to lean on
And when you fall just try to hold on
I'll be back in your arms
Together we'll always be
For what may come
For what may come

I don't mind if you're far away
I'll be waiting for you anyway
Under the sky of sunshine or rain
I know I'm gonna be in your arms again

Different continents
Its not a thing
Coz I know that we'll be okay
Endless borders, countless days
Our love will pave the way

Coz I'll be your wall
For you to lean on
And when you fall just try to hold on
I'll be back in your arms
Together we'll always be
For what may come

Together we'll always be
For what may come
Together we'll always be
For what may come
For what may come
