

Mountains

Yuna

I wish I meant something to you
Like you did to me

I wish I could stay as new
As when you first saw me

Oh my
Head is tight from just tryna hide my views
Oh when
I keep trying my best just keep you

Kiss me in the corner
You're such a heart
So that you remember
Baby when I'm gone...

While we're still having fun
Well I'm still waiting
(Waiting for the mountains to fall) (2x)

Baby when I am gone
You were something
(Waiting for the mountains to fall) (2x)

I'm not as smart as your books
But I know how to look
Out for you...

I come with the head and the heart
Being using it from the start

And my
Brain is starting to suffering bcas of you
Still
I've been trying my best just to please you

Kiss me in the corner
You're such a heart
So that you remember
Baby when I'm gone...

While we're still having fun
Well I'm still waiting
(Waiting for the mountains to fall) (2x)

Baby when I am gone
You were something
(Waiting for the mountains to fall) (2x)

Kiss me in the corner
You're such a heart
So that you remember
Baby when I'm gone...

While we're still having fun
Well I'm still waiting
(Waiting for the mountains to fall) (2x)

Baby when I am gone
You were something
(Waiting for the mountains to fall) (2x)
