

# Musician

Yuna

Mr. Musician, sing your song  
I came out here alone tonight  
So let me bathe in your stage lights

Mr. Musician, sing your song  
I will hum the melodies  
Cause he knows all the words to this

Little that you know (2x)  
He used to sing your song  
Knowing nothing could go wrong

Little that you know (2x)  
All these people raising up their hands  
But I just wanna be with him  
Little of that you know, you're the only thing I have of him

Mr. Musician, sing your song  
I will try and sing along  
Even though it hurts me to the bone

Mr. Musician, sing your song  
Only you can take me back in time  
When I was his and he was mine

Little that you know (2x)  
He used to sing your song  
Knowing nothing could go wrong

Little that you know (2x)  
All these people raising up their hands  
But I just wanna be with him

Little of that you know, you're the only thing I have of him

Little that you know, little that you know  
He used to sing your song  
Knowing nothing could go wrong  
Little that you know (2x)  
All these people raising up their hands

Yeah

Little that you know (2x)  
Little that you know...

You're the only thing that I have of him  
(You're the only thing that I have of him)  
You're the only thing that he left me with  
(You're the only thing, that he left me with)  
You're the only thing that I have of him  
(You're the only thing, that I have of him)

You're the only thing
