

# (Not) The Love of My Life

Yuna

Been holding on these years  
It's been a sweep, these tears  
Stayin' to know what love is

You wanna move so fast  
But I know we won't last  
Gotta let go of all the memories

You may be hurtin' now  
But once you understand why we can't hold it out  
Goin' shed a new skin, babe  
You say just hang around  
Just give me some time  
Give me some time  
To find my way  
But baby I know

Our love is broken  
My heart is frozen  
You're not the love of my life  
Our love our moments  
Let me compose it  
You're not the love of my life

I no longer feel it  
Linger in my soul  
Nothing here feels right with you  
No more, no more

I no longer feel it  
Linger in my soul  
Nothing here feels right with you  
No more, no more

Don't reminisce the past  
'Cause I don't wanna look back  
Let bygones be bygones baby  
You say let's work it out  
But I can't seem to get rid of all the doubt  
You reap what you sow, babe

Because you messed around  
I gave you my trust but you weren't honest  
And now you wish  
That things were the same

Our love is broken  
My heart is frozen  
You're not the love of my life  
Our love our moments  
Let me compose it  
You're not the love of my life

I no longer feel it  
Linger in my soul  
Nothing here feels right with you  
No more, no more

Our love is broken  
My heart is frozen  
You're not the love of my life

Our love our moments  
Let me compose it  
You're not the love of my life

You ain't the love of my llfe
