

# Remember My Name

Yuna

I am sensing that a storm is coming  
They calling me out to play  
Got a feeling I'm gonna win it  
They think that I don't have game  
I know before I've had a few falls  
I've got dirt all of my face  
Baby today I'm gonna win it  
You gonna remember my name  
You gonna remember my name  
You gonna remember my name  
I've got a feeling  
You gonna remember my name

Are you gonna bring me down  
Trying to bring me down again  
Are you gonna bring me down  
Trying to bring me down again  
I know (7x)  
You gonna remember my name

I am sensed a storm is coming  
They calling you out to play  
And when you can feel  
Your heart is racing  
You keeping up with the pace  
And even though you have failed before  
You know you will find the way  
Baby today you gonna win it  
They gonna remember your name  
They gonna remember your name  
You gonna remember my name  
I've got a feeling  
You gonna remember my name

(2x):

Are you gonna bring me down  
Trying to bring me down again  
Are you gonna bring me down  
Trying to bring me down again  
I know (7x)  
You gonna remember my name
