Sparkle

You make me sick in a lot of ways Make me smile always I'm just really into Having this chase Kept my eyes open everytime Falling for you is a crime We let sparks go off This time Oh oh I've been here before Not long ago With someone just as beautiful Just as doubtful I sure don't mind Having you This time I see it in the steps you take I hear it in the sounds you make I'm just really into Having a taste Remind me how we got this far Remind me how we fell apart Oh I can't give you That space in my heart Oh oh I've been here before Not long ago With someone just as beautiful Just as doubtful I sure don't mind Having you This time And then we fall asleep. I'm the one Who's always in the way But you got me Hoping for more I'm here to stay As though I am always there As though I had never left Oh oh I've been here before Not long ago With someone just as beautiful Just as doubtful I sure don't mind Spendin' time Oh oh I've been here before Not long ago With someone just as beautiful

Yuna

Just as doubtful I sure don't mind I sure don't mind I sure don't mind Getting hurt again
