

Young

Yuna

Hey there, how are you?
We used to be friends
I wish a lot of things were a little bit different
Lil' bit different, oh oh, lil' bit different

Ain't love grand, brings people together
The next thing you know
We go back to being strangers
Back to being strangers, oh oh, back to being strangers

I am just like you
I will find love too
I wish we were young again
Young again

Hey there, how are you?
You used to be mine, but
Now you have another woman by your side, oh
By your side, oh oh, by your side

Ain't life grand, we used to have it all
Funny how in a second everything is gone
We used to have it all, oh, we used to have it all

I am just like you
I will find love too
I wish we were young again
Young again

Hey there, how are you?
I see you doing fine now
Sometimes I think about what it would be like
If you're by my side, oh, you were by my side

Ain't life sweet, I kept it all in a song
Never gonna lose it even though we moved on
I'm moving on, oh, I'm moving on

I am just like you
I will find love too
I wish we were young again
Young again
