

# 1st Time

Yung Joc

It aint nothing like the first time  
Im tryna tell you i can blow your mind  
Baby if i touch you here and kiss you there  
Gonna fall in love shorty, best beware

This aint no love song  
More like a cut song  
You say your day was long, well tell daddy whats wrong  
Imma tell you one time -- just relax and unwind  
Whisper sweet nothings now you blushing, chills down your spine  
Oh yea you hot and tempted  
Oh no not pretty ricky  
But when you grind on me  
Imma leave you hot and drippin  
Slip in those satin sheets  
Now go and roll over  
Oh yea its up and down motions like a rollercoaster  
I see she up on top  
You all on my jock  
Imma do it nonstop, until your cherry pop  
Imma keep going and going, the energizer bunny  
Mr long john all in your tummy

It aint nothing like the first time  
Im tryna tell you i can blow your mind  
Baby if i touch you here and kiss you there  
Gonna fall in love shorty, best beware

Wont you let me introduce ya to thug karmasutra  
This aint no lovey dovey (nah) but watch how i seduce ya  
Girl im the man, i- i- im the man  
I push the right buttons and the sex on demand  
Oh yea i like it slow  
Baby be easy  
Ooo, watch ya teeth  
Baby be easy  
Tell me your vicky secrets, tell me all the dirt  
You smell like peaches, must bath & body works  
Love the way your body work, imma make your body rock  
Once you climax, you feel the aftershock  
(i know i got you hooked on this lovin'  
Dont get it twisted, we just cutin' baby)

It aint nothing like the first time  
Im tryna tell you i can blow your mind  
Baby if i touch you here and kiss you there  
Gonna fall in love shorty, best beware

Yea i know i know, i still aint went soft  
But i gotta go, lets hit the shower baby, its time to rinse off  
I'll wash yours, you wash mine, i adore it the first time  
I blew yours, you blew mines, sometimes i'll drop you a line  
But look dont tell nobody, just keep it on the low  
Not your best friend, not your cousin, nobodys gotta know  
I know it sounds crazy, but thats just how it is  
Yung J-O-C, long live, long live

It aint nothing like the first time  
Im tryna tell you i can blow your mind  
Baby if i touch you here and kiss you there  
Gonna fall in love shorty, best beware
